Congratulations to you for getting your hands on this powerful system that I've created to get you off to a fast start and begin putting some very decent money into your pocket almost immediately by COPYING my total package and then DUPLICATING it over and over again for massive profits... and it all starts with, “Baby Steps.”

Step One: Stop being told “*what*” to do and learn “*how*” to do

You've been a victim of *bad information* from *so-called* experts and *applied theories* about Internet marketing and online business success.

Making money online does NOT depend on a first page ranking on Google, a unique product or even having a list. Those can be important, but they are not decisive.

And it's not talent, intelligence or degrees either. Those are nice extras, but again, not absolutely necessary...

The one thing that will all but guarantee you'll make money online – the one thing that really makes a difference and separates those who “try” from those those who actually succeed – is KNOWLEDGE OF “HOW”

Think about it for a second...

There's no shortage of “guru's” waiting around the corner, each one ready to tell you “*what*” to buy from them next. But **nobody's taking the time to actually show you “*how*” to do it so you can learn to duplicate those results for yourself.**

Right?

You see, the problem is that they're telling you “*what*” to buy and showing you, (half-heatedly at best), how to use advanced strategies you can't possibly master, simply because you've never even been shown **the basic fundamentals of making money online from square-one**. They're showing you how to perform open-heart surgery, when you haven't even learned how to draw blood!

They're always telling you to buy this PPC technique that shows images of thousands **they've** made in days, or the latest, greatest SEO strategy that rockets your website to

the first page of Google (which never happens)...some *sure-fire* Clickbank blah, blah, blah...

So what winds up happening is, because you are trying to use concepts you can't possibly implement... and because you've never had anyone teach you the basic strategies of "how" to make money online and "how" to do it step-by-step, you ultimately wind up getting frustrated and feeling like you've been scammed (once again).

And so all that enthusiasm you had to succeed as an Internet marketer, escapes you like a air rushing out of a burst balloon, as you experience nothing but disappointment, anxiety, and failure, time and again.

Is it any wonder why over 90% of people NEVER make a dime online?

So your first step is: invest in an opportunity that is going to show you step-by-step and from square one, "how" to make money online starting with the basics.

No Money No Problem teaches you step-by-step, "how" to take a simple, easy-to-do and highly converting product (up to 60% and sometimes more) and sell it effectively online.

What does that mean exactly?

It means that I'm going to show you:

- How for as little as \$.0.99, you can buy a domain name that is **NOT** the typical "same is lame" domain name that most people pick and in how doing so, you can drive 400% more traffic to the FREE website I'm going to give you...

(more on that FREE website below...just stick with me here for a minute)

- How to write ads that sell. I can't believe how nobody seems to be teaching you this very basic, but extremely important first-step in making money online. But I'm going to teach you exactly how to do it and do it right.
- How to advertise for Free online through a series of very clear and precise video tutorials and short reports that leave out the fluff and just gets right to the point.

This is critical to your success no matter what you're promoting online. Most people don't have extra money to be spending on advertising, but NEED to advertise in order to drive targeted traffic to their offer.

No Money No Problem shows you step-by-step "how".

- Much, much more...

I can go on and on about the fundamentals of "how" to effectively sell online, because it's so important to your overall success, but I think you get the point. So let's move on...

Step Two: Stop Being Another “Me Too” Internet Marketer and Product Pusher!

The Same Is Lame. Most forms of Internet Marketing is old, unoriginal, boring and lame. How can I say this with so much confidence? Because I've seen a lot of online advertising and it's all the same and it's all lame.

By definition, if your marketing is lame it lacks force or effectiveness. Ouch. Not good. Most Internet marketing is lacking force, effectiveness and something else...RESULTS!

The crippling effect that lame marketing delivers, is that it programs your prospects to ignore you. It makes them deaf to your message. In this economy you can't begin to win (in this case, make money online), unless you have your prospect's undivided attention.

Step Three: Stop Trying to Sell Things To Your Website Visitors!

It's hardly a secret that it's always easier to give something away, than it is to sell.

No-Money-No-Problem instantly separates you from the *same is lame “me too”* marketing that most people ignore, by allowing you to give away something (for free), to your website visitors that's of value **AND** most people in this economy are already actively searching for online.

When you give away something for free that provides a solution for a large population of people, lots of people are going to take you up on your free offer and your conversion-rate is going to be high.

And if giving away this problem solving solution to people makes you money while helping them, then you have *the perfect formula for online success*.

This **No-Money-No-Problem** system is so brutally effective, yet easy enough that just about anyone (regardless of skill level) can start earning a steady online income almost right away – and with minimal effort.

Now, I'm not saying you're going to be the next Internet marketing millionaire – hardly. What I am saying however, is that this simple, *easy-to-do* formula for making money online can bring in several hundred dollars a week.

So while you won't be earning the BIG MONEY that buys vacation homes, yachts and Porsche's, you will be making easy money for bills, food, rent and just plain “making ends meet.”

Then, once you learn “*how*” consistently - you can duplicate this system over and over again for massive profits. That's “*how*” you do it – and that's what “Baby Steps” is all about.

Okay, so let's recap: The main concept is, I give away a Free product that every person on the planet wants and at the same time, I make easy money on a daily basis like clockwork – Guaranteed!

The most exciting news for you is, you can copy my exact blueprint for yourself. And when you use my **No-Money-No-Problem** system, **YOU** make all the money...not a dime of it goes to me. As promised on the website, 100% of the profit instantly goes directly to your Paypal or Alertpay account!

All you have to do to make money online is COPY my website and exact recipe for earning money – there's No margin for error. Just follow a simple step-by-step plan that I have tested myself to generate hundreds of dollars per day online.

How would just an Extra \$100/day change your current situation?

This system is already complete, in place and only needs you to take your first step towards real Internet marketing success now. It could not be simpler.

While I still retain the legal rights to my system, you will NEVER have to pay me any royalties or monthly fees of any kind to use my system.

Although **No-Money-No-Problem** has a Unique Selling Proposition (USP), in that it gives away a free product to your website visitors, at some point, money is going to have to “exchange” hands if any of it's going to land in your Paypal or Alertpay account right?

You'd be correct. But before you jump to conclusions and think you have it all figured out, you don't, so read what I'm about to surprise you with next!

Even when you're giving something away of extreme value for free, it can still also be selling something. Let's be real, it has to if you're going to make any money right?

But **remember** what I said about giving away something for free that provides a **solution** for a large population of people - lots of them are going to take you up on your free offer and **your conversion-rate is going to be high. (up to 60% or more)**

Take a moment to just put this into perspective...

A high volume of people take me up on my free offer and a high percentage of those people end up buying what I'm selling. And because what I'm offering is of great benefit to most people in this economy, they line up to get what I give away for free. I can also always count on the majority of them to end up buying what I'm selling.

Now let me show you how you can have this same system for yourself...

What I sell isn't all that different from what other Internet marketers sell. In fact, that's what makes this even more exceptional. You may even see other marketers selling similar things.

But here's the critical key-point to remember:

“It's harder to get the attention of and attract a customer now in this changing economy than it has been in the past, which means that it will take more time, money and effort to motivate them to buy from you. **That's a recipe for disaster.**”

The **No-Money-No-Problem** system already comes complete with 17 extremely powerful marketing products and **you can duplicate this exact approach to sell anything** you want after you get some experience under your belt.

Despite the fact that my system does NOT have any products that are exclusively unique, it does have one **very powerful** Unique Selling Proposition (USP) that very few system's are smart enough to have and which makes it almost impossible to resist.

The “*me too*” marketers, (which are the majority), are out there trying to peddle similar products ineffectively and with “*the same is lame*” marketing techniques that nobody is paying attention to, while making less than my kids get for an allowance each week.

I, by stark contrast, have added a *magic incentive* to my formula! And I've positioned **No-Money-No-Problem** to be the only and obvious choice and given people a real incentive to buy exclusively from me. (which also means they'll buy from you)

It's an offer so irresistible that an overwhelming majority of people who see it simply can't help but make the purchase. Well, it's actually about 6 out of every 10 people who buy, but considering the average for the typical “*me too*” marketer who only makes between 1-3 sales for every 100 people who see their offer, **No-Money-No-Problem** has an exceptionally high conversion ratio of around 60%.

You'll find out another major reason why the conversion ratio is so high further down in the ebook...so stick with me.

The critical point for you to remember is this: YOU, not me, will profit 100% because of the Unique Selling Proposition (USP) and built-in incentive in my system. This **is not** your average affiliate program where you have to split the profits with me. You get all the money and I get nothing!

Don't even think about closing this ebook before I tell you about this next part. You'd surely be walking away from a simple and effective quick-cash formula for no other reason than “assuming” you already know what I'm offering - and you'd most certainly be wrong. Get ready, because here we go...

What I'm about to share with you is the *key ingredient*, the “magic” that separates online success from online flop, but IT IS NOT the final “Knock-Out Punch” that makes **No-Money-No-Problem so unique. You need to stick with me just a little bit longer – but I promise it'll be worth the few extra minutes of your time!**

I sell a collection of highly concentrated, industry-leading software and ebooks, specifically designed to teach, train and assist you in becoming a more successful and profitable Internet marketer.

You learn EVERYTHING you need to know to succeed with your turnkey, work-from-home business...all in one place.

You Can See the Complete Package at the End of This eBook

If you're at all interested in making money online as a means to create additional income for bills, food, rent and just plain, "making ends meet" in these tough economic times, you're going to want *at least some* of these things that this package offers.

And that's the real benefit. Right now, struggling online entrepreneur's like you are using **No-Money-No-Problem** to achieve their online goals with certainty and confidence.

Now, you may have already purchased products that are similar to, or on the same topics as some of the items I've included as part of your collection, but there is surely some that you don't yet have and will be anxious to get your hands on them to use...**especially at such a ridiculously cheap and deeply discounted price!**

If I tried to sell them from a typical website like every other "me too" marketer is doing, I'd probably get their typical results; which is about 1-3 sales for every 100 people who see the offer. Even getting those returns would be difficult, time consuming and costly to advertise. And if you're a "newbie" or otherwise inexperienced in Internet marketing, then multiply that difficulty factor by 10!

Who can afford that in this economy – can you?

Although anyone trying to make money online will "need" these products at some point, the fact is: the vast majority of people simply won't buy these exact products from me or one of my *individualized* websites – just too much competition out there.

So many people are selling the same information and tools re-packaged under different names and from different websites, to say that the competition is *extremely* fierce, would be putting it mildly. 1-3 sales for every 100 website visitors is all a typical, "me too" website with "the same is lame" selling strategies could ever expect to make.

But I've flipped the situation on its head. Instead of having only 1-3 out of every 100 people who see my offer buy from me – I have about 6 out of every 10 people buy from me and I actually have days where only 3 people out of 10 **don't** buy from me!

How can **No-Money-No-Problem get such high conversions?**

We can both agree that online business opportunities, as a whole, have a bad reputation. People are more apprehensive than ever, guarded, have "been taken" one too many times, and just plain don't trust any opportunity (legit or otherwise) for fear its

another scam.

Unfortunately for many, “*online business opportunities*” is synonymous with: *Slickster, Hukster, Shyster and Chiseler.*

A few bad apples have spoiled it for the bunch. Dirty tricks, common scams and shady deals have tainted the business and the confidence of your customers. People are nervous and they overcompensate. They start in defensive mode, they do more research than they normally would on another purchase, they bluff and they play their hand close to their chest. This makes your job even more difficult.

Combine this unfortunate reality with shaky economic conditions, low consumer confidence and the traditional way “*me too*” marketer's using “*the same is lame*” selling strategies and you've got a cancer that can kill, and kill quickly.

Sniff, Sniff... if a customer catches even a whiff of the traditional, old school, “*me too, same is lame*” marketer on you... you're toast. They'll drop you faster than an NBA star stripping off his warm-up pants and racing for the basket.

Keep operating in a way that lumps you in with all the other “*me too*” marketer's and you could end up being a statistic. You can't keep doing what you're doing. *It's suicide.*

There are **three** things customers are desperately seeking right now that you're not giving them in your “*me too*” marketing and sales process that my **No-Money-No-Problem** system is.

They need it... they crave it... and they're not going to spend a dime with you unless you deliver it.

1. Confidence

2. Value

3. Support

Your website visitors and customers want to know they are getting a *legitimate* work-from-home business opportunity from a reputable Internet marketer with integrity. They want to know they are going to be taken care of **AFTER** the sale with dependable customer service, support and ongoing training that helps them reach their goals as quickly as possible.

Your website visitors and customers are also terrified of making *another* bad choice, getting taken advantage of and looking foolish.

As a result, they are hunting for a trusted adviser, a mentor and unique format to guide their success. They're desperately trying to avoid the “*me too*” product pusher. They despise games and the guess work and chance involved in choosing. They want to cut to the chase and deal with the best.

The **No-Money-No-Problem** system brings back to the *work-from-home business opportunity* industry something that's been grossly neglected for a very long time: **Integrity**

How many times have you joined a money making opportunity, only to find that you can't even get someone to respond to your emails after the sale? You won't find that here. **I guarantee that I'll respond to your emails in 24 hours or less.**

Have a question now? Email me at: support@no-money-no-problem.com

I even make myself available by telephone if need be. Now I can't take everyone's call (which is why you can always contact me by email and I offer such comprehensive training), because there are thousands of people around the world needing my help and there's only one of me.

No “guru” will ever give you that level of personal attention, but I will.

I adhere to moral and ethical business principles. I stand behind my product. I over-deliver on customer service, support and the ongoing training that you desperately need to be successful online.

All this and more, is what's allowed me to completely reverse the typical results “me too” marketer's experience and I've accomplished it without ever having to “try” and sell anything.

My magic incentive is so tantalizing, that it convinces an extremely high percentage of people when they see this offer, that only someone who just flat-out doesn't “*get it*” would pass up on the opportunity to purchase.

You get all the money – and I get nothing. I'd be willing to bet that's what's happening for someone right now, as I'm sure the payment link in this free ebook you're reading is probably not mine. **But that's the entire point of my *No-Money-No-Problem***

system.

Unless you have the skills to design an effective work-from-home opportunity for yourself that has the power to convert your website visitors into paying customers and isn't another “*me too*” product, then my **No-Money-No-Problem** system is your only and obvious choice. **It's also a system that you can duplicate over and over again for massive profits.**

My system effectively becomes **yours**. I set up your website, I set up your customers websites and their customers customers websites. I even handle the hosting of your website, delivery of the products and I'm here to work with anyone that needs help through my *Industry-Leading* support. But now **YOU** are making 100% of the money from it.

Don't hesitate to read the above paragraph again – I know it catches some people off guard. YES, you can get everything I've created and you can use my turnkey system as your own – completely yours – 100%.

Get your head around how unique this is. If you can get your head around how unique and rare this opportunity is, I'm sure you'll agree this is the easiest way to begin to immediately start making money online with the least amount of work on your end.

”... Just copy my already profitable system, use it for yourself and with my step-by-step training, marketing tools and support that teach you absolutely everything you need to know from A-Z, you can't go wrong.”

That's why this opportunity is so incredibly fantastic. Just about everyone who downloads and reads this free ebook thinks the same thing and buys so they can get in on this rare opportunity. After reading this far, people don't care whose payment link it is, as it makes no difference because they always receive the same thing. Like I said above, you're most likely not reading my personal ebook – no big deal – right?

You of course want it to be YOUR payment link, which is why you'll buy the products so I can then add your payment link to this ebook. It's really a *no-brainer* and why everyone else does and why **No-Money-No-Problem** converts at an amazing rate of about 60%.

You can't go wrong.

No-Money-No-Problem is the most realistic, most sensible, most sure way I know for you to become the powerhouse of mental, physical and financial energy you want to be. To get control of your life. Call the shots. And enjoy the rewards of real success.

No-Money-No-Problem will give you an incredible advantage online. Because it can

help you avoid many of the disastrous mistakes that kill most people before their profitable.

Because I know you have some questions, I've put together a list of frequently asked questions (FAQ) below, starting with the MAJOR ONE most people ask me:

Question #1: I get what you're saying, I understand how the system effectively becomes mine, but how can you offer me a work-from-home opportunity where I make all the money and you make nothing? And where's the “catch?”

Answer: There's no “catch” with **No-Money-No-Problem**, but there is a *method to my madness* – because I know people must think I'm crazy for offering an opportunity like this.

I really don't make any money when someone buys from you. The entire **No-Money-No-Problem** system honestly becomes completely “your deal”.

The *method to my madness* and the reason I give you 100% of the profits and I get nothing is because of this: it's called **Building Authentic Relationships**.

Although the Free website and ebook that I'll setup and host for you will be yours, the fact remains that everyone will know that **No-Money-No-Problem** is a Frank Jones product. You will be helping me build authentic relationships with everyone who comes into contact with my system.

The current mindset of the typical “me too” marketer is “get a customer to make a sale.”

THAT'S BACKWARDS. My “new rules of Internet marketing” clearly state the money is in the relationship. With relationship as priority number one, my goal is to give away a Free Quick-Cash Formula and build trust, rapport and a solid, authentic relationship.

I offer a variety of powerful online marketing tools designed to specifically help people make more money online in addition to **No-Money-No-Problem**. **That's what I do – I show people how to pull cash out of the Internet using their computers.** And when I can show people how to put some *quick* money in their pockets and give them the support they *desperately* need to succeed online, I build trust, rapport and a solid, authentic relationship.

This means that when it comes time for them to take their Internet marketing to the next level, I become the only and obvious choice as the “go to person” and they come to me as paying customers.

I put my investment in the long-term, which also means I have a vested interest in making sure YOU succeed!

And it really costs me nothing to invest in you while building authentic relationships in the process. The free website I give you is done, the ebook I rebrand with your link has already been written and the products you get are digital and ready for immediate

download, and my comprehensive training is already in place. So it's really no trouble for me to fulfill your order regardless of whose ebook you're reading right now.

The important thing for you to remember is I know **No-Money-No-Problem** will work for you, ALL the hard work has already been done by me and it's proven itself to be brutally effective.

Question #2: How do I get people to my website if I have no Internet marketing experience?

Answer: It's not a problem. In a series of highly concentrated training modules available in my members area after purchase, you'll learn exactly and step-by-step, EVERYTHING you need to know to succeed with your **No-Money-No-Problem** business...all in one place.

As part of your product download, you'll also gain immediate access to my extensive Free **ready-to-use** marketing tools that quickly get you earning money.

Even if you have No marketing experience, I show you exactly the best step-by-step methods to promote and drive targeted traffic to your website that are all either free, or practically free and proven to work.

Keep in mind that on the average, about 6 out of every 10 people that see your offer, end up purchasing. This means that you really only need to drive a *moderate* amount of traffic to your website each day to make a decent income. And that's not hard to do because I show you "how".

You can promote your **No-Money-No-Problem** website through classified ads (very, very effective), email promotions, link advertising, (another very effective method I'll show you how to do), Ezines, your own website, blog and anything else you can think of on top of the methods I'll show you in the members area.

I will also be giving you what I have personally found to be the most effective and least expensive (mainly free) ways to expose people to your website and generate traffic.

Question #3: I've already been down this road and tried promoting other products and never made any sales. How is this any different and how can you be so sure it'll work for me?

Answer: If you think about it for a minute, the first step in having a successful business (online or offline), is to provide a product or service that people want. It has to be in demand and people have to be actively looking for what you're offering.

You are going to be giving away a free ebook that a very large population is already actively looking for in today's economy. People want to know how to make extra money for bills, food, rent and just plain "making ends meet." It didn't take you but a second to grab this free ebook because you wanted to know how too, did it?

Most people that you send to your website will download your free ebook. And of those

people who download your free ebook, many of them will make the purchase so they can have their very own free **No-Money-No-Problem** website with the “magic incentive” that will make them quick-cash with a totally turnkey, automated system just like you will be doing.

The one thing that makes a successful Internet marketing entrepreneur successful - the one thing that really makes a difference and separates those who “try” from those who actually succeed - is KNOWLEDGE of “HOW”.

Once I give you the knowledge of “HOW” and tell you what to do with it, (which I will in the members area), you'll see how easy it is to make money and gain some momentum... you won't be able to stop it.

Question #4: But why is this the *only, obvious and preferred* choice for making money online like you claim it is? And why are so many people prepared to buy **No-Money-No-Problem** compared to all the others?

Answer: It's easy. You're going to be giving away a free ebook on how to make quick-money to people already actively looking for how they can earn extra money online to use for “*making ends meet.*”

Using the Google Keyword Tool, I just performed a search based on popular keyword phrases of common search-terms people looking to make money online use and here's a few results:

1. “make money online” (searched 823,000 times a month)
2. “work from home” (searched 2,1740,00 times a month)
3. “home based business” (searched 8417,000 time a month)

And that's just a tiny sample, of all the related searches people are doing on a monthly basis. There are millions, upon millions of searches done every month by people looking to make money online. Feel free to do your own research – don't just take my word for it.

YOUR free ebook will tell these people (already actively looking to make money online) how they can make quick-money online without the need of knowing how to set up a website, without ever trying to sell anything, without having to share any of the money they make and without any ongoing fees or expenses.

Who wouldn't be interested in reading a free ebook that does all that and solves their problem?

Remember what I said near the beginning of this ebook: When you can provide a solution for a large population of people, you have *the perfect formula for online success.*

It won't be hard to give away this ebook, because as I showed you in the example

above, (which was just a small sample), people are already out actively searching for this kind of information (**a solution**) to help them make some extra money online in this economy. Most people who come across your site will download your free ebook with little to no resistance. Didn't you?

What you need to wrap your head around, is the reason *why* people are prepared to buy **No-Money-No-Problem** above all others.

They buy because of the “magic incentive” that allows them to effectively turn this system into their own by getting their **own** Paypal or Alertpay payment link on their **own** free money making website and a re-branded copy of this ebook that allows them to instantly plug into a quick-money system just like you have.

If someone is looking for a way to make extra money online, why wouldn't they want to be in business within 24 hours or less **and** have all the hard work done for them by utilizing an already tested, optimized and proven turnkey system?

Just like you, the people reading your free ebook will see the exact same potential. The system just makes sense. There is no fluff – no filler – just a rock solid business built around a logical and straight-forward business model that's brutally effective in the way that it makes people money.

It becomes a no-brainer as to why **No-Money-No-Problem** is the *only* and *obvious* choice.

And at only \$17, (yes, ONLY \$17) it's a one-time payment that's affordable for just about everyone – even those on a shoestring budget. For most folks who contemplate a home business, a low-cost solution is not only nice, but also very necessary.

People need to make money and often times, have very little money to spend. When you can provide a high-quality money making solution at a rock-bottom price, it makes the buying decision that much easier and the risk, practically zero!

And it's called, “No Money? No Problem!” for a reason.

This is good news for you for a couple reasons:

- 1. If the price was higher, people might need to think about it. But when you can give them all this for only \$17, the average person who's serious about making some money online won't even think twice.*
- 2. People are smart enough to realize that with just one sale, they've made their money back. Unlike the average business, there's no waiting around to recoup start-up costs. It's almost a risk-free opportunity too good to pass up!*

Question #5: I'm a newbie, is this going to be difficult? Are you going to show me what to do?

Answer: Not at all, in fact, it's easy. Here's “*how*”:

Step One: Qualify to receive you Free money making website.

| | |
|---|---|
|  | <p>Simply click the "Paypal or Alertpay" payment button located at the bottom of the website HERE and purchase my collection of Professional-Grade Internet Marketing Tools for just \$17.</p> |
| | <p>Or, you can click the <i>"Get Me Started"</i> link at the end of this section, which will redirect you to the website.</p> |
| | <p>To Review my Collection of Marketing Tools, scroll down to the end of this ebook.</p> |
| | <p>This now qualifies you to get your Free money-making website.</p> |
| | <p>Note: you may need to click "return to merchant" to be redirected to the members area.</p> |

Step Two: Forward me your receipt as proof of purchase

| | |
|--|---|
|  | <p>After your payment is made, Paypal or Alertpay will <u>email</u> you a receipt that contains the transaction details. The receipt will resemble the image to the left.</p> |
| | <p>Simply forward that email to: Support@No-Money-No-Problem.com</p> |
| | <p>Once I receive your receipt, you'll be sent a welcome email that gives you access to your products download, my comprehensive training, Instant Marketing materials and of course, instructions for getting your FREE website online.</p> |

Step Three: Register a domain name at www.GoDaddy.com

| | |
|---|---|
|  | <p>This is the link you will advertise and people will click to see your website. It can be anything you want, as long as it isn't already taken by someone else.</p> |
| | <p>This step is also outlined in the members area and I even have a video tutorial that shows you exactly how to purchase a domain name online.</p> |
| | <p>NOTE: I would advise waiting to get your domain name until after you purchase. That way I can show you exactly "how" to purchase a domain name that can increase your response rate by as much as 400%!</p> |

Step Four: Get your Free website online by paying a one-time setup fee of only \$10, which ALSO includes lifetime hosting on my ultra-reliable servers.

| | |
|---|---|
|  | <p>Simply click the "Buy from 2CO" button (located in the members area) and pay the one-time setup fee. This setup fee also includes lifetime hosting on my reliable servers. You'll NEVER have to pay for website hosting ever again.</p> |
|---|---|

Step Five: Complete a short form located in the members area – and get your Free **No-Money-No-Problem** website and re-branded ebook just like this one.

Enter your details into the submission form located in the members area, (step 4) and I'll create your Free Money Making Website and re-branded ebook.

You'll have this step completed in 60 seconds or less!

Once you click "submit", I'll have your website online in 24 hours or less and I'll notify you by email when your website is live.

Now every time you advertise your link (also known as URL), they will be sent to your website homepage that looks identical to mine (just like where you got this ebook from) but instead of downloading my ebook, they'll download yours. It looks identical to this one, but it will have your Payment Links in it instead of the payment links of the person that sent you here today.

I will be giving you very detailed instruction on how to advertise your personal website link effectively and affordably by showing you the proven effective, free and almost-free ways a Internet Marketing Expert (who's willing to share his techniques) does it, (that's me!).

Question #6: What exactly is Paypal and Alertpay? How do I open an account with them? Does it cost money?

Answer: Paypal and Alertpay are very simple online payment processors used for selling things online from websites. To open an account, you just need to visit their respective websites at: www.PayPal.com or www.AlertPay.com. Select an account type based on your specific needs. *But make sure you choose an account that allows you to accept website payments.*

In most countries around the world, you'll be able to use Paypal, (which is the most popular payment processor) as your payment processor. In some countries, you won't. In that case, you'll want to use Alertpay.

When you complete step 4 in the members area to get your website online, (as described above), you'll give me the email address that is associated with either your Paypal or Alertpay account, depending on which payment processor you choose. This will ensure that the multiple \$17 payments you'll be receiving, go directly to your account where they can be transferred immediately to your bank.

Question #17: Do I have to rebrand this ebook myself, or otherwise do anything (like know about HTML) to get my website online?

Answer: No you don't! I do all of that for you. Your only job will be to send people to your website and my comprehensive training modules show you exactly "how" to do that. Remember, this is designed to be a completely turnkey money making system that you simply need to plug into. It's simple and easy.

Question #8: Will I ever have to give refunds to any people who buy from me?

Answer: That's a great question! I can't think of one good reason why anyone would want a refund. Especially since this ebook (and having direct access to emailing me any specific questions before purchase), fully discloses exactly what this business *is and is not*, before they buy.

I want you to be an educated consumer so you can make an informed purchase and that's why I hold nothing back and give you direct access to me via email – and I do answer my emails.

With that said, there are **never** any \$17 refunds from the purchase of this product. The product everyone buys to qualify for their Free website, is a collection of digital information books and software that is impossible to really return once they are downloaded. Everyone who buys the package agrees that they can not request a refund. All sales are final, which means you always keep every penny.

Question #9: What if someone has a problem with their downloads, or completing the steps to getting their Free website online?

Answer: I promised you on the website that you would not have to do any kind of customer service – and I meant it. I deal with any support-related issues for you, so there's no need for them to ever contact you.

As outlined in step 2 above (and on the website), everyone knows to email me their receipt as proof of purchase by forwarding it to me at: Support@No-Money-No-Problem.com so they'll come straight to me if they ever have any problems or even just questions they need help with.

Question #10: What if someone has a question about the system or how it works?

Answer: Almost the same as above. This is the best part. You never have to answer any questions...they come directly to me and I do all the answering for you. I will honestly do my best to close the sale on your behalf. I was serious about having a vested interest in your success, so I will do the work and you will make the money. I never see a penny...ever!

Question #11: How long will it take for you to get me setup?

Answer: From clicking the payment button to completing the submission form in the members area, (step 4), it will take you about 10 minutes or less. After that, sit back, take a look at my training modules and I'll have your website online within 24 hours.

Often times, I can have your website online sooner, but due to the varying volume of orders day to day and the fact that I manually configure and upload websites, it may take up to 24 hours – which is what I guarantee.

NOTE: To make this process more streamlined and to get your website online quicker,

I ONLY use domain names registered through GoDaddy. It's simply too time consuming to learn the many different back-office control panels of the countless host providers out there for me to be efficient.

I do not make money by you buying your domain name through GoDaddy. That would require me to be a reseller of their products and have a special link for you to click – I do not have any of that.

I personally host your website, (this is the only option because it allows me to control content and not let people alter the website, or otherwise misuse it) for life. There is a one-time \$10 setup fee and you don't pay that until you get to the members area. You just need to purchase your domain name through GoDaddy.com

Question #12: I can't believe this is real.

Answer: This is very real and feel free to email me with any questions or concerns you might have. You'll see that there is a very real person ready to help you with this business.

Contact me at: support@no-money-no-problem.com

Question #13: This all sounds like a good deal, but I think I'm going to need to think about it.

Answer: It's good to think about it, sleep on it if that's what you really need to do. But let's quickly put this into perspective to make this easier for you to understand.

I don't need to tell you that selling on the Internet is hard. And if you're like the average person with little to no marketing skills to speak of, it can be extremely difficult. There's also a lot of competition and many of those competitors have a heck of a lot more experienced than you do and have deep pockets for advertising.

Giving something away for free that a large population of people are looking for in this economy, especially something like a free ebook on how to make money online is easy.

(You still with me? Something HARD vs. Something EASY)

Many people will take you up on your offer for this free book on how to make quick money online and then will be exposed to this simple system, where they will not need to create or even upload a website, do not have to worry about products or delivery, do not have to deal with any customer support issues and they receive 100% of the money – no splitting with anybody.

Also, they receive a collection of products that are currently being sold online for over \$500 and this has to be a great deal for them even if they end up personally using only 2 or 3 of them.

Finally and very important, is you gain **instant access** to my comprehensive training modules, which are packed with information on *how* to use no-cost and low-cost methods to drive a ton of traffic to any website.

Believe me --- Making money online just does not get any simpler or easier than this. In fact, if I made it any MORE simple, I'd have to sign you up myself, so you wouldn't have to lift a single finger!

Question #14: Sounds good, but how long is the going to take to get started – I need money NOW!

Answer: A good question, but very difficult for me to answer as it depends so much on the person using the system. I have people all of the time that email me saying how

they bought the system a week ago or 2 weeks ago and are just now looking at everything and have a question, or just now sending their receipt as proof of purchase.

If you are one of those people and let the information collect virtual dust on your computer then it could be a very long time indeed before you make any money.

Thought + Action = Results!

If on the other hand, you're the type of person that will immediately dive in, take time to read my comprehensive training modules and start placing ads using not only my pre-written ads from my **extensive marketing tools section**, but follow my other proven recommendations; it's very possible to have a **multiple sales** overnight with the cash sitting in your Paypal or Alertpay account waiting on you by the next morning.

Question #15: What if I buy and then need help placing ads, writing ads, or something like that?

Answer: My highly comprehensive training modules literally teaches a person who knows absolutely nothing about making money online, every step-by-step process involved from A-Z. Even things I would normally assume people know (like how to copy and paste) is shown to you. And if you still have questions, I'm only and always just an email away.

I'm always ready to help and give suggestions on any marketing challenges you may have.

Question #16: OK, I trust you. This really is the best, most honest and straight-forward thing I've ever seen. I'm still in shock but I'm not going to waste another minute...what do I need to do to get started?

Answer: All you have to do is click on the "*Get Me Started*" link below and you can get started in just a few minutes.

You will be pleasantly surprised by just how easy and simple this is. But I am always just an email away if you have questions or need help.

I am so glad I tried this system because I read it over and over and could feel that It would work. Now I really can step it up with this business. Thank you so very much for such a GREAT program that has allowed me to make money for the first time of all these years of trying one program to the next, only to waste money time and again.
